

Audurra™ Smart Cup System

Mixing & Paint Preparation

Description:

The Audurra Smart Cup System consists of the lid and liner kits as well as the separate outer cups and collars. Each lid has a permanently integrated filter, which ensures optimal filtration of the paint during use. You can choose between lids with 125µ filter, which are often recommended for water-based paints, or with 200µ filter for traditional solvent-based paints. With the Audurra Smart Cup System, the disposable liner is inserted into the reusable outer cup. The paint is simply mixed in the liner, then the disposable lid (with built-in filter) and the locking ring are put on – and the Audurra system is complete and ready to use.

Properties:

- available in sizes 170ml, 400ml, 650ml and 850ml
- Filter sizes: 125µ and 200µ
- With this system, painters can spray in a constant 90-degree angle independent of the orientation of the part to be processed (even overhead)
- Reduces the risk of contamination from the outside and guarantees a uniform paint application

Audurra™ Smart Cup System

Available in:

Article number	Volume	Filter	Packaging
D15382260	170 ml	125μ	50 liners, 50 lids, 24 caps
D15382261	170 ml	200μ	50 liners, 50 lids, 24 caps
D15382262	400 ml	125μ	50 liners, 50 lids, 24 caps
D15382263	400 ml	200μ	50 liners, 50 lids, 24 caps
D15382264	650 ml	125μ	50 liners, 50 lids, 24 caps
D15382265	650 ml	200μ	50 liners, 50 lids, 24 caps
D15382266	850 ml	125μ	25 liners, 25 lids, 12 caps
D15382267	850 ml	200μ	25 liners, 25 lids, 12 caps
D15382273	170 ml	-	2 outer cups, 2 locking rings (collars)
D15382274	400 ml	-	2 outer cups, 2 locking rings (collars)
D15382275	650 ml	-	2 outer cups, 2 locking rings (collars)
D15382276	850 ml	-	1 outer cup, 1 locking ring (collar)
D15410685	400 ml	125μ	25 lids, 12 caps
D15410686	650/850ml	125μ	25 lids, 12 caps

Audurra™ Smart Cup System

Mixing & Paint Preparation

Physical properties:

Component	Material
Liners	LDPE (low-density polyethylene)
Lid	PP (polypropylene)
Filter	Nylon 6

Directions for use:

- Insert the disposable liner into the outer cup
- Mix the color in the Audurra liner
- Gently place the lid on the cup and push it down. You will hear a click when the lid is properly snapped into place. Attach the locking ring by tightening clockwise until secure
- Select the appropriate adapter for the spray gun (see page 5). Then push the adapter down and turn it until it clicks into place in the lid.
- After painting, disconnect the air supply line from the spray gun, turn the spray gun over and pull the trigger to return any excess paint in the cup. Wait until the excess paint has flowed back into the liner before removing the spray gun.
- Store unused paint with the cap for the Audurra cup in accordance with local regulations and official instructions
